Securities in Upward Trend in English Markets—Money Tight in Lombard Street.

FRENCH MARKET IMPROVES

But Trading Is Small, With Some Heaviness at Close—Prices Are Uneven on German Boerse.

Special Cable to THE NEW YORK TIMES.

LONDON, July 9.—The recovery of sterling to $4.85 11-32 encouraged the stock markets today and kept gilt-edge securities on the upgrade. The 5 per cent war loan jumped 7-16 to £101 5-16, while conversion loan was at £76⅛, and the 2½ per cent consols were at £54 15-16. The 4 per cent funding loan was at £87. All were higher.

The New Cable and Wireless, Ltd., shares provided the centre of interest in the industrial markets, with 5½ per cent preference spurting to 96s and B ordinaries leaping forward from 80s to 95s. Radio Corporation declined $2 to $88.50. Columbia Graphophone rose 9-16 to £14 15-16, while His Master's Voice Graphophone was steady at £8¼. Electrics were weak, with General Electric falling to 50s. 5d., and Associated Electric declining 1s. 3d. to 45s. 9d. Canadian and American Celanese were strong at £3¾ and £6⅞, respectively, but British Celanese and Courtalds were weak. Rubbers were again buoyant but later reacted as the price of the commodity fell. Roan Antelopes were strong at £20 7-16, but other Rhodesian coppers were easier. De Beers advanced ⅜ to £13 11-16.

Money was tight in Lombard Street, with fresh overnight loans commanding the high rate of 5½ per cent. Discounts were steady with three-month bills bringing 5⅜ per cent. The Bank of England set aside 500,000 sovereigns but bought £209,000 in bar gold.

Tone Better on Paris Bourse.

Wireless to THE NEW YORK TIMES.

PARIS, July 9.—Improvement in the general tone of the Bourse continued today, although there was little activity. Lack of trading made some heaviness noticeable at the close. The approaching debate on debts in the Chamber of Deputies and the Bastile holidays were blamed for the conservative attitude of speculators.

The only exceptions to the calm market were Rio Tinto and the rubbers, which registered advances. On the Curb Tubize again suffered a reaction today.

Banks were irregular, while rentes were steady, closing as follows: Three, 74.50; 1918 4s, 95; 1920 amortizable 5s, 124.90; 1928 5s, 85; 1920 6s, 102.20; 1927 amortizable 6s, 109.60.

German Market Quiet.

Special Cable to THE NEW YORK TIMES.

BERLIN, July 9.—Despite an underlying element of firmness, trading on the Berlin Boerse today showed an uneven tendency, business being restricted to isolated transactions in electrical stocks. Rheinish mining shares which have been exceedingly active in past weeks, remained quiet, although the favorites continued unchanged. Siemens & Halske topped 400 in response to heavy bank orders, incidentally strengthening A. E. G., Schuckert, Bergmann and Rhenish Westphalian. Both Tietz and Karstadt again weakened today. Although there was virtually no trading in I. G. Farben, Potash and Glanzstoff, they were unchanged.

The Federal Railways today ordered nearly 100,000,000 marks' worth of rolling stock. The transaction will be financed by the Darmstaedter National Bank.

The largest outstanding note issue since the reform of the currency in 1924 was 4,930,020,000 marks, on Dec. 31, 1923. In gold values this was the largest since the war, although in terms of the old depreciated paper the circulation reached 496½ quintillions of marks, or 496½ billions, on Dec. 31, 1923.

The Reichsbank's rediscount rate remains at 7½ per cent, to which it was advanced from 6½ per cent on April 25.

Quebec Premier Says Province's Control Is Running Smoothly.

MONTREAL, Que., July 9.—Premier Taschereau of Quebec stated here today that the present method of controlling the newsprint output in the province was working satisfactorily and that everything seemed to be running smoothly as there had been no complaints received by the Quebec Government.

Premier Taschereau also said that he did not see any need for the calling together of another interprovincial newsprint conference.

COTTON FUTURES UP 9 TO 18 POINTS NET

Influence of Official Report on Acreage Continues—Taking of Profits Checks Rise.

15,197,000 BALES FORECAST

Memphis Agency's Figure of Crop Condition Is Made Basis of Estimate of Production.

With the official estimate of the cotton acreage indicating a slightly smaller area than had been expected, trading on the Cotton Exchange increased yesterday and carried December within a few points of the 19-cent level, compared with 18.40, the low record of the week. Although weather conditions were favorable over fully three-quarters of the cotton belt, commission house interests replaced contracts sold prior to the announcement from Washington, and final quotations showed a gain of 9 to 18 points on the day.

Buying was stimulated by two private reports, one of heavier weevil damage in southern portions of the belt than at this time last year, and the other, from a Memphis agency, placing the condition of the crop at 74, which indicated a production of 15,197,000 bales. As consumption during the current season ending this month is generally estimated at 15,000,000 or more and the carry-over is expected to fall 1,000,000 bales below the ten-year average, the indicated production attracted buying from several directions. The private estimate was about 900,000 bales over the end of July indication from the same agency last year, which eventually proved to be the actual outturn.

The improvement of more than half a cent in two days developed sufficient profit-taking in the last hour to halt the advance.

Quotations for yesterday follow:

July	18.34	18.25	18.34	18.25	
Oct., old	18.73	18.50	18.66	18.51

LONDON, July 9 (AP).—The fourth series of wool auction sales opened today with offerings amounting to 9,508 bales. It was a good selection and there was a moderate demand from all sections except America.

About 7,500 bales were sold and the following declines were recorded: Merinos 7½ per cent, fine crossbreds 7½ to 10 per cent, medium coarse 5 to 7½ per cent, puntarenas 5½ to 7½ per cent. A small supply of Cape of Good Hope and Natal was withdrawn.

Buyers Here Under Year Ago.

The number of buyers in town in the past week showed a decrease under the corresponding week a year ago. A slight increase over the number reported during the preceding week was disclosed. The buyers registered in the past week were 654, as compared to 816 in the corresponding week a year ago, and 633 in the preceding week, according to the lists published in THE TIMES. The number of buyers listed yesterday was 402, a marked gain over last Tuesday's arrivals, when 187 were reported.

***

Will Show New Bathing Suits.

Although there is more or less of an understanding in the trade that 1930 lines of bathing suits would not be shown to the jobbers before Aug. 1, indications here yesterday were that some of them would be offered to the trade next week. Jobbers are showing more than the usual interest in them this year, due to the unusually active business they have enjoyed and the paucity of their stocks. Nothing definite is known about prices of the new goods, but it was said to be very probable that they would not be higher. In the business now passing, the feature is the continued wholesaler demand for men's speed suits.

***

Approve Standard Top Grading.

Acceptance of government standards in the grading of tops was unanimously approved by the French yarn spinners' group of the Wool Institute at their initial meeting held yesterday in the institute offices. Reports showing that sales were in a satisfactory position as compared with production were read by A. D. Whiteside, president of the institute, who presided. Reports on the sales and production in the industry are to be made every week in the future. The group before adjourning went on record as approving work done by the Associated Knit Underwear Manufacturers of America in promoting the use of knitted underwear made from French spun worsted yarns.

***

Fall Glove Styles on Show.

The first showing here of men's Fall glove styles will take place today and tomorrow at the Hotel Lincoln, where a display in charge of W. W. Breslin, merchandising manager of the Associated Glove Crafts, will be put on. The display will be informal, but will contain a wide variety of samples from the leading manufacturers in the industry. It will be staged for the benefit of stylists and fashion experts of the retail stores and will embrace gloves for dress, street and sport wear. Invitations to attend have been sent to many persons whom the display is designed to interest, but it may be viewed by any buyer or stylist who desires to see it.

***

Weather Helps Candy Sales.

Two kinds of candy have benefited particularly from the warm weather experienced during the past month, it was said here yesterday. One is the special packing offered for weekend trips and the other is the type of small package and bar candy that is in active demand at the beaches and parks. The Summer demand for both began earlier than usual this year, and returns from these sources promise to run into record figures. City sales have also kept up well, candy partially taking the place of heavier foods with thousands of consumers. Chewing gum sales have also mounted with the thermometer, and also give promise of reaching new volume records.

***

Drop in Customs Protests.

The annual report, issued yesterday, on the number of cases handled by the United States Customs Court during the fiscal year ended June 30 shows a drop of almost 5,000 in the number of protests filed with the court since last July. The number of cases decided also dropped from 52,047 during the year ended June, 1928, to 46,733 for the year just closed. This is largely accounted for by the interruption of work caused by the transfer of the court from the old to the new building. Other figures showed appeals to reappraisement, filed, 6,631, and decided, 4,826. Appeals for review filed totaled 620 and petitions for remission of additional duty totaled 213.

Plan Campaign for Fall Hats.

An advertising campaign, resembling the one conducted recently in the interest of straw hats, is under consideration for next Fall by the Hat Institute, it was learned yesterday. The new campaign is planned to promote Fall models of men's hats produced by the trade. Although no attempt has been made to tabulate the increased sales of straws resulting from the recent campaign, reports from retailers and others were so encouraging that the institute was prompted to consider a similar drive when the new season opens. No definite data has been fixed, however, it was said.

***

To Price Spring Underwear Soon.

A fair volume of business has been done informally here this week in "athletic" types of men's underwear for next Spring, but most of the leading lines of lightweight goods will not be priced until about Aug. 1. Some, however, will be opened next week, and all signs point to liberal early buying. One concern which will show its new goods next week, for example, expects to sell half of its season's production during that period. Indications are that prices will in general show no material change from those now current. Jobbers continue to duplicate on lightweights for the current season, and selling agents expect this to run through most of next month.

***

To Confer on Silk Weighting.

An informal discussion of the silk weighting problem, in which representatives of silk manufacturers and those interested in standardization participated, was held Monday at a luncheon in the Town Hall Club, it was learned last night. At the adjournment of the meeting it was agreed that a conference to consider the problem of weighting would be called, probably toward the end of the present month. The American Standards Association will be asked to arrange the conference, it is understood. Ten persons representing interests involved in the problem attended the luncheon.

Gray Goods Affected by Heat.

Trading in gray goods here yesterday was adversely affected by the heat, and the sales put through were neither numerous nor important. Spot printcloth sales included 38½ inch 64-60s at 7¼ cents, 60-48s at 6¼ cents and 44-40s at 4¾ cents. Second hands sold sheetings, including 36-inch 40-square, 6.15-yard goods at 5¼ cents and 37-inch 48-square, four-yard cloths at 7½ cents. Eight cents was paid for 37-inch 3.95-yard drills. Trading in carded broadcloths resulted in sales of 100-60s at 10¾ cents, although the better qualities of the goods were held at 10½ cents.

WHEAT PRICES EBB AS TRADERS SELL

Rains in the Canadian Grain Belt Bring a Change in Sentiment.

EXPORT DEMAND IS SLOW

Corn Is Affected by the Action of Wheat and by Weather News and Close Is Lower.

Special to The New York Times.

CHICAGO, July 9.—Local longs were disposed to take profits on wheat, and with some change in the character of the crop comments from the Canadian Northwest prices dropped 2⅞ to 3¾ cents from the early high. The finish was at the bottom with stop loss orders caught on the way down. Net losses for the day were 2⅝ to 2¾ cents.

Winnipeg was easy and lost 1⅞ to 2¾ cents with December leading. Liverpool closed 2 to 2¼ pence higher.

There was a rather pronounced disposition to even up for the American and Canadian Government reports which are due tomorrow afternoon, and some of the locals who have been aggressive on the bull side of late, took the bear side for a turn.

Recent showers in southern Alberta are reported as having checked deterioration, but soaking rains will be needed within a week or there will be a return of the damage talk. Export demand was slow with sales of 250,000 bushels hard Winters and 250,000 bushels Manitobas. Movement of new wheat is rapidly increasing and the basis on red Winter here was lowered 1 to 2 cents as compared with the July.

Primary arrivals today 2,487,000 bushels; week ago 1,626,000 bushels; last year 2,140,000 bushels. Shipments 1,396,000 bushels; week ago 782,000 bushels; last year 1,356,000 bushels.

Corn was affected by the action of wheat and by favorable weather over a good part of the belt, and the close was 1¼ to 2 cents lower with December leading. Cash interests bought September and sold December widening the spread to 4⅜ cents, against 3⅝ cents yesterday.

Country offerings were small, and shipping demand light. Argentina has about 100,000,000 bushels of corn remaining for export the balance of the season, according to estimates. Shipments were 621,000 bushels; week ago 577,000 bushels; last year 498,000 bushels.

Oats closed ⅞ to ¾ cents lower. Rye lost 3¾ cents, breaking sharply toward the last with wheat.

Prices for the principal grains were as follows:

UNITY OF STANDARDS SOUGHT BY INDUSTRY

Funds for Campaign Will Be Raised by Committee Named by New National Board.

FEDERAL BUREAU GIVES AID

G. K. Burgess, Its Head, Is a Director—Business Leaders Take Part—Big Savings Forecast.

The newly organized board of directors of the American Standards Association, representing many lines of industry, decided at its first meeting yesterday at the headquarters of the association, 29 West Thirty-ninth Street, to start a national campaign of broad scope to encourage industrial standardization. A finance committee will raise funds to press the campaign, the success of which is expected to effect large savings for business. Standardization activities have already brought about "tremendous" economies, the board reported.

Recognized standards for the material and manufacture of products have now been set up or will soon be established, according to a report of the association, for such goods as bed sheets, structural steel, household refrigerators, elevators and plumbing equipment. Even a safety code for window washing is projected.

As an example of practical economy through standardization the case of a company was cited which formerly paid from $50 to $70 a hundred for a certain type of bolt. After the type had been standardized it was possible to purchase the same kind of bolt for $9 a hundred, a saving of more than 80 per cent on the original price.

The committee in charge of the financing campaign to cover future standardization work will consist of Bancroft Gherardi, vice president of the American Telephone and Telegraph Company, who will act as chairman; Quincy Bent, vice president of the Bethlehem Steel Company, and Howard Coonley, president of the Walworth Company.

The board of directors of the association also approved at its meeting an agreement with the United States Bureau of Standards, represented by its director, George K. Burgess, for a plan of cooperation to hasten the formation and acceptance of standards. The Government bureau, according to this plan, will serve primarily those industrial groups which have no satisfactory standardization facilities of their own, helping them to formulate temporary standards designed to meet immediate requirements.

The American Standards Association, on the other hand, will attend particularly to business groups which possess standardization facilities, bringing them together to formulate "American standards" after a consensus has been reached among those primarily concerned, the producers, consumers and distributers. Where feasible, the temporary standards prepared with the aid of the Bureau of Standards will be brought before the American Standards Association for advancement to the rank of "American standards".

The meeting also considered the project to join with the national standardizing bodies of fourteen European countries in the International Standards Association but deferred the matter until the next meeting of the board in order to permit further study of methods of cooperation with the foreign bodies.

The organization of the new board yesterday represented the taking over by industrial executives of work previously in the hands of engineers and scientists only. It was hailed as the formal acceptance by industry of the work of the association.

Besides the three men appointed to the finance committee, members of the board include Matthew S. Sloan, president of the New York Edison Company; L. A. Downs, president of the Illinois Central Railroad; F. E. Moskovics, president of the Improved Products Company; R. J. Sullivan, vice president of the Travelers Insurance Company; C. L. Collins, president of the Reliance Electric and Engineering Company, and Mr. Burgess.

HEARST BUYS HOTEL IN $4,000,000 DEAL

Publisher Acquires Lombardy in 56th Street With Lease on Abutting Property.

HENRY MANDEL IS SELLER

New Subsidiary of the Barth Hotels Corporation Leases the 22-Story Building for Long Term.

The Lombardy, a twenty-two story hotel at 109-123 East Fifty-sixth Street, was sold yesterday by Henry Mandel to William Randolph Hearst. The leasehold, with option of renewal, on the abutting property at 108-114 East Fifty-seventh Street was also bought by the publisher from Mr. Mandel. The deal represents an investment of about $4,000,000.

The purchase was made by Mr. Hearst through his Apperson Realty Corporation, through which he holds many important midtown properties. The Henry Mandel companies figuring in the transaction were Lombardy Towers Inc., owner of the hotel, and the One Park Avenue Corporation, owner of the leasehold and renewal option. Huberth & Huberth, brokers, negotiated the transaction.

The Lombardy was immediately leased by Mr. Hearst for a long term of years to the Lombardy Hotel Corporation, a newly organized subsidiary of the Barth Hotels Corporation. The corporation is headed by Harry Barth and operates the Ritz Tower, the Warwick and the Westbury here, as well as other hotels in important cities throughout the country. Malcolm Sumner, who represented the interests of the Barth Hotels Corporation in leasing the Lombardy, announced that no outstanding change in policy in the hotel management will be undertaken.

The Lombardy was opened in the Fall of 1927. It is a residential hotel of the highest type, located just east of Park Avenue, with 160 feet frontage on Fifty-sixth Street. It is twenty-two stories in height and contains three hundred and thirty rooms, single and in suites, furnished and unfurnished, a number with terraces, and has every modern appointment. Residence rooms are spacious, with large closets, serving pantries and refrigeration, and public rooms are luxuriously furnished.

Mr. Hearst is one of the largest owners of real estate in the Fifty-seventh Street section. Included in some of his holdings are the Ritz Tower, at the northeast corner of Fifty-seventh Street and Park Avenue; the abutting property at the southeast corner of Fifty-eighth Street and Park Avenue; the southeast corner of Sixtieth Street and Park Avenue; the Stuyvesant Publications Building and 23 East Fifty-sixth Street, at the northwest corner of Fifty-sixth Street and Madison Avenue; the plot from 5 to 21 East Fifty-seventh Street, 14 to 26 East Fifty-eighth Street, and 600 Madison Avenue; and the twenty-story building at 20-22 East Fifty-seventh Street.

LONG ISLAND TRACT SOLD.

Developers Buy 320 Acres of Land at Jericho.

The Willets and Jackson estates at Jericho, L. I., one of the oldest tracts on the island, have just been sold through Howard Le C. Roome Inc. and Hamilton, Iselin & Co., brokers. The property consists of about 320 acres, with Colonial house, tenants' houses, stables, barns, &c. It is surrounded by the estates of Middleton S. Burrell, the late Elbert H. Gary, Samuel S. Underhill, William P. T. Preston and George F. Kent.

The Dualin Holding Corporation is the purchaser. Congreve Jackson, who manages its holdings, said that the corporation's plans call for 150 acres to be used as a club to be known as the Jericho Club. A clubhouse will be erected and a building to house two indoor tennis courts with swimming pool adjoining. The grounds will be improved with an eighteen hole golf course and outdoor tennis courts.

The remaining property of 170 acres will be sold off in estates, preferably to members of the club, who must be acceptable to an admission committee.

The Dualin Holding Corporation purchased last year the Maurice Heckscher property of 125 acres at Old Westbury, about two miles from this recent purchase. This was subdivied and resold within sixty days, Juan Ceballos purchasing the mansion house and twenty-one acres, the balance being divided between F. S. von Stade, Mrs. J. S. Rathborne, Maxwell Stevenson, Wright Duryea, and Miss Lillian Bostwick.

SITE NEAR 5TH AVENUE FOR ITALIAN HOSPITAL

Anthony Campagna Foregoes Profit in Conveying 106th Street Plot.

The plot at 1, 3 and 5 East 106th Street, fronting 140 feet by 100 feet in depth, has been conveyed to the Italian Hospital by Anthony Campagna for the price he paid for the property about two months ago. During that short period there has been marked activity in property in the vicinity. The block front on Fifth Avenue between 106th and 107th Streets was sold and resold three times and the ground is now being excavated for a large apartment house.

In conveying the plot Mr. Campagna announced that he had refused a profit of $200,000, preferring to contribute to the hospital the profit he might have made so that a definite site could be obtained for the new building. It was also announced that the law firm of Davis, Symmes & Schreiber, which took charge of the legal matters in the conveyance, contributed its services and that contributions of service were made by several of the trustees.

The plot now owned by the Italian Hospital is within 100 feet of Fifth Avenue and opposite the Fifth Avenue Hospital. Plans to acquire a new site for the hospital have been under way for several months. The present home of the Italian Hospital is at the foot of Eighty-third and Eighty-fourth Streets, overlooking the East River, in the Carl Schurz Park area. That property was sold by the trustees some time ago to the T. E. Rhoades Company for future improvement with a cooperative apartment house. Two or three large multifamily dwellings surround the hospital buildings.

The 106th Street plot is occupied by three old five-story flats. Mr. Campagna says plans for the new Italian Hospital will be started at once so that building operations may begin in the near future.

Four Tenants Remain in Old Chelsea Block, Defying Wreckers; One Starts Court Action

At least four tenants remained yesterday in their houses in the central portions of the Twenty-third and Twenty-fourth Street blockfronts between Ninth and Tenth Avenues, despite the fact that wreckers were proceeding steadily with the work of tearing down the old London Terrace and Chelsea cottage rows to make way for a $25,000,000 hotel and apartment development of the Henry Mandel Associates, Inc. At least one of these tenants has started court action in an effort to keep her home intact for another year.

Undaunted by the din of demolition about them, the occupants of houses numbered 419, 429 and 433 on the Twenty-third Street front and at 432 West Twenty-fourth Street for the time being at least, appeared more or less firmly ensconced just where they were a month ago, about the time their neighbors on both sides moved away. Their chief added concern seemed to be in keeping windows more tightly closed in an attempt to hold out the noise of falling timbers and the dust from plastering dropping near by.

Already the wrecking crews have accomplished the removal of about half of the eighty buildings in the block. Only three, including one on each side of 432, remain in the centre of Twenty-fourth Street front, eighty-year-old reminders of the fashionable district of which they were a part when first they were occupied.

Of the four remaining families in the centre of the block, Mrs. T. Hart in 429 West Twenty-third Street seems the most determined to hold on as long as possible. Most of her boarders have left her, she admitted, owing to the disturbance all about the place, but yesterday she was found proceeding with her housework as usual, unconquered even by the continual thud of dislodged bricks close by.

"I intend to stay here another year if possible," she said determinedly. "My lease calls for it, and I have hired a lawyer to defend what I consider my rights."

Her home is named "The Clement Moore" after Clement C. Moore, whose heirs have leased the block to the Mandel company. Her lawyer, Randolph P. Harris, explained the claim he is defending in her name.

"Mrs. Hart signed a lease for five years to June, 1930, with Stanley Werner, and this lease has another year to run," he asserted. "We have instituted proceedings to enjoin the London Terrace Corporation from ousting my client under this sublease."

The action is due to be heard Thursday before Supreme Court Justice William H. Black, he said.

At the Mandel offices it was explained that Mrs. Hart's contract was a sub-lease and did not directly affect the Mandel company. The company's legal department, it was admitted, has been working "until midnight or later" recently in order to straighten out promptly the technical and legal problems involved in the various leases. The questions, it was stated, amount to no more than usually are encountered in such a large undertaking, and their early settlement was anticipated, with no delay in plans for early erection of a group of ten units of sixteen-story apartments to go up on the street frontages. No effort is being made at present to tear down the houses close to and fronting on the avenues, where apartment hotels about twenty stories in height are to be erected next year by Mr. Mandel.

654 NEW STRUCTURES PLANNED IN HALF YEAR

Manhattan Projects Estimated to Cost $419,761,400, More Than Double the Total a Year Ago.

Plans of 654 new buildings to cost $419,761,400 were filed in Manhattan in the first half of this year, as compared with 671 structures to cost $199,440,880 projected in the same period of 1928, according to a report yesterday by Charles Brady, superintendent of the Bureau of Buildings. This year's total shows a loss of seventeen in number of buildings but a gain of $220,320,520 in estimated costs. Filings during both periods were accelerated by proposed changes in housing regulations.

Applications for approval of alterations to 1,453 old buildings at a cost of $27,681,521 were filed the last half year, as against 1,584, costing $23,712,297, in the same period last year, showing a loss of 131 in number of buildings, but a gain of $23,712,297 in money involved.

The report shows that plans of 203 new buildings were filed last June, at a cost of $15,897,500, as against fifty-nine, costing $35,362,675, in June last year. This is a gain of 144 in number of buildings, but a loss of $19,465,175 in money involved.

A FLEET OF BUSES WILL MEET BREMEN

North German Lloyd to Bring Passengers in New Liner to Manhattan Terminals.

SHIP IS READY TO SAIL

Mail Plane to Be Launched From Deck 300 Miles at Sea, Will Beat Boat by 7 Hours.

The North German Lloyd Line will expand its bus system between its pier at Fifty-eighth Street, Brooklyn, and railroad terminals in Manhattan, to conform in size to the demand that will develop when the new 46,000 ton liner Bremen reaches here July 22 on her maiden trip. Hans Schuengel, general passenger manager of the line, said yesterday he expected the problem of getting passengers to Manhattan would be relatively simple.

The line now operates five buses to accommodate passengers arriving at the Brooklyn pier on the liner Columbus, which carries 1,600 passengers, and the service is satisfactory. He said he did not believe the Bremen maximum of 2,200 passengers would be any more difficult to handle. The line will be prepared, he said, to add to its fleet of buses on the arrival of the Bremen and will expand the service as later trips of the Bremen and the Europa, which will sail next April, increase demand.

Mr. Schuengel said he reached the Brooklyn pier from his office in downtown New York in about twenty-five minutes and considered it more accessible than the Hoboken piers. Most of the passengers on the North German Lloyd ships arriving in Brooklyn come to Manhattan on the B. M. T., in taxicabs or in the automobiles of friends who meet them at the pier. Observers of transit problems had expressed fear that the big new ship, forced to dock in Brooklyn for lack of a North River pier, would afford its owners a difficult problem. Mr. Schuengel said the five buses which carry about 150 passengers are never crowded and he predicted that a few more buses would clear up the problem of the Bremen's passengers.

It was also announced yesterday that the seaplane which will be carried by the Bremen will leave the ship with mail about 4 A. M. July 22, about 300 miles off shore and arrive at the pier about 7 A. M. The Bremen is expected to dock shortly after 2 P. M. The seaplane will be catapulted from the ship by a compressed air apparatus recently perfected in Germany, and in later trips it will leave the ship about 600 miles from land. It will be used later to carry passengers.

Information received at the New York offices of the line indicated that the ship is practically ready to leave Bremen July 16 and Cherbourg and Southampton the next day. She recently went to Bremerhaven for finishing touches and to Southampton for the painting of her hull. On her sea trial last week she developed 28.5 knots, which was beyond the expectations of her owners. Plans for the reception that will attend the arrival of the ship at Brooklyn are being held in abeyance pending further information from abroad.

PLANS EXPANSION OF UNITED HOTELS

President of Corporation Says New Company Will Be Able to Handle Any Chain.

Special to The New York Times.

NIAGARA FALLS, N. Y., July 9.—Frank A. Dudley today made public the plan which he has for merging many leading hotels on the American Continent in one unit to be incorporated as the United International Hotels, Inc., and financed through the banking firm of Dillon, Read & Co. of New York City. He is president of the United Hotels Corporation of America which owns and operates hotels in the United States and Canada.

Mr. Dudley's plan is to be placed before the shareholders of the Niagara Falls Hotel Corporation, owner of the Hotel Niagara in this city, by the directors. Other hotels in the United Hotels Corporation will be invited similarly to approve the proposals, as will others that have not yet joined the chain.

Speaking today, Mr. Dudley said: "I have laid the foundation for an organization which will be powerful enough, both as to finance and operation, to take over any hotel which we wish to incorporate."

For some weeks there has been a report that the Bowman-Biltmore and the United Hotels would amalgamate, and the formation of this new company is looked upon here as a step in that direction and also as likely to affect numerous other big hostelries in this country and Canada. The United chain now has hotels in New York, Albany, Syracuse, Rochester and Niagara Falls; Philadelphia, Harrisburg and Erie, Pa.; Seattle, Wash.; Worcester, Mass.; Akron, Ohio; Flint, Mich.; Newark, Trenton and Paterson, N. J.; Toronto, Hamilton and Windsor, Ont.; Montreal, Quebec, and St. John, N. B. All are operated by United through ownership of a majority of the common stock, while the ownership rests in the preferred stockholders' hands. Stock of the new company is to listed on the New York Stock Exchange, it is stated. The head office of the company will be in this city.

MAJESTIC TO CARRY 2,310.

600 to Sail Tonight to Attend Fair in Polish Republic.

The White Star liner Majestic will carry 2,310 passengers when she sails tonight for Southampton and Cherbourg, thus extending the peak of the Summer eastbound travel two weeks beyond its normal period. Officials of the line said they thought the ship had never carried such a volume of trade at this date.

All space was taken in both first and third classes. More than 700 passengers were in first class and 710 were in tourist. Among those sailing were 600 Americans of Polish birth or descent en route to the exposition in Poland being held in observance of the tenth anniversary of the recognition of the Polish republic. This is the third delegation carried by ships of the White Star or associated lines to the exposition. One group of 600 was taken on the Pennland to the port of Gdynia.

NEW AUTO OUT NEXT MONTH

First Ruxton Front Wheel Drive Cars to Be Made in St. Louis.

The eight-cylinder Ruxton front wheel drive car which is to be produced by the New Era Motors, Inc., will be manufactured in a plant in St. Louis, pending completion of a plant in Detroit, it was announced yesterday by J. E. Roberts, general manager, with headquarters at 17 East Forty-fifth Street. A. M. Andrews is president of the company and Fred D. Peabody, formerly assistant general sales manager of the Hupp Motor Car Corporation, is sales manager.

The company expects early models to be ready for delivery next month. A demonstration model has been shown in New York and the West during the last few months.

PROTESTS 'DELAY' HERE IN CUBAN CLEARANCES

Merchants' Association Appeals for Increased Facilities at Consular Offices.

What is described as "intolerable inconvenience and delay" said to have been suffered by American shippers as a result of the new Cuban consular regulations which became effective July 1 caused the Merchants' Association yesterday to appeal to the Departments of State of both Cuba and the United States for additional personnel and space at the offices of the Cuban consulate, 17 Battery Place.

Shippers are obliged to stand in line several hours while clerks at the consulate perform routine work, it is said. The consulate is no longer permitted to accept documents from persons who are not registered with it and the careful check-up of each exporter appearing at the consulate has resulted in long delays, it is stated. The Merchants' Association sent the following cablegram to the Cuban Department of State:

"The Merchants' Association of New York respectfully urges the Department of State immediately to provide additional personnel and additional space for the Cuban consulate in New York in order properly to handle the greatly increased volume of work of that consulate under the new regulations effective July 1. This request is made on behalf of thousands of American shippers suffering intolerable inconvenience and delay due to inadequate service in spite of the fact that the Consul General and his staff are making every effort to give prompt service. This is entirely impossible under present conditions.

"The large increase in the volume of work will be permanent under the new regulations; therefore, permanent relief should be provided. Earnestly urge prompt action in the interest of Cuban consignees as well as American shippers."

The Merchants' Association is advised that merchandise is being shipped to Cuba without the necessary papers as a result of the confusion and has asked the American Department of Commerce to use its influence with Cuban officials to have waived the penalties usually accruing in such case.

ALLOWS SHIPPING PACT ON PORTO RICAN TRADE

Board Approves Agreement, Among Others, Between Bull Line and Spanish Carriers.

Special to The New York Times.

WASHINGTON, July 9.—Approval was given by the Shipping Board today to an agreement made by the Bull Insular Line, Inc., with Compagnie Francaise de Navigation a Vapeur, Spanish Royal Mail Line and Ybarra Line, covering the through movement of shipments from Spanish ports to Porto Rico, with transshipment at New York. Through rates are to based on direct line rates and apportioned three-sevenths to the trans-Atlantic carrier and four-sevenths to the Bull Line, the latter to absorb cost of transshipment out of its proportion.

Other agreements approved included:

Redwood Line, Inc., with Los Angeles Steamship Company—Through billing arrangement covering movement of shipments from Mobile and New Orleans to the Hawaiian Islands upon a combination of local rates of the participating carriers. Cost of transshipment at Los Angeles Harbor is to be absorbed by the Redwood Line.

Through rates are to be the combination of the local rates of the participating carriers, cost of transferring shipments to be assumed in equal proportions by the lines.

The board sanctioned cancellation of an agreement between the Gulf Pacific Line, Inc., and the Los Angeles Steamship Company, which provided for movement of shipments between Gulf ports and the Hawaiian Islands, via Los Angeles, on through bills of lading.

DAVIS MAY KEEP FILIPINO CABINET

Governor General Considers Requesting the Members to Withhold Resignations.

HIS PROGRAM IS APPROVED

Quezon Declares Legislature Will Support Plans for Economic and Industrial Development.

Special Cable to THE NEW YORK TIMES.

MANILA, July 9.—Governor General Dwight F. Davis, newly inaugurated Chief Executive of the Philippine Islands, met nearly 2,000 Americans and prominent Filipinos at the inaugural ball in the picturesque old Marble Hall within the historic precincts of the walled city of Manila last night and today he early began the many duties that are attached to his new post.

Almost without exception the reception tendered him has been favorable. American business men and Filipino leaders are expressing approval of the ideas and ideals of the Governor General's inaugural address. This emphasized that the independence question was up to Washington, and it indicated that he intends to energetically urge a program of economic and industrial development.

Governor General Davis, like his predecessor, Colonel Stimson, was congratulated on his frankness and his eagerly expressed hopes that the administration would be able to realize what is regarded generally as somewhat lofty ambitions.

That section of the Governor General's address referring to dishonesty in office is meeting with particular applause, due to the increasingly frequent allegations that persons in high offices are corrupt.

Press Opposed Corruption.

The press, in recent months, has campaigned against corruption in official places and the Governor General's declaration that he intends to strong support among the public, though old-timers look upon his pronouncements with more hope than conviction. Governor General Davis does not intend to make any radical changes in the personnel of his administration for the time being, and outside of the general ideas expressed in his speech he is non-committal as to what definite policies he will advance, this cautious attitude indicating that he intends to thoroughly understand the problems before he professes to have found a solution.

Several conferences with members of the administration were called today and will be continued tomorrow.

The first was with Vice Governor Gilmore and the others were with the Cabinet secretaries, Governor General Davis intimating that while he was desirous of becoming acquainted with everybody, he believes that he had better straight away devote his time to discussing the different problems of routine matter with the persons who will have direct business with him.

Manuel Quezon, President of the Senate, declared today that the Governor General will find the Filipino Legislature quite "ready to support abolish graft, if any, is meeting with him in such legislation as was advocated in his excellent inaugural."

Smile Wins Friends.

The Governor's genial smile as well as the charming personality of his daughter Alice, who is "First Lady of the Philippines" until her mother arrives from the United States, have won the friendship of the Filipinos as well as that of their own countrymen in Manila.

Provincial Governors were among the visitors who met the Chief Executive today.

The Governor General said this evening that he does not intend to change his Cabinet immediately and that he may request that the usual formal resignations be withheld.

The resignation of Ben F. Wright, the Insular Auditor, following a long controversy with the Philippine Supreme Court, is of considerable interest here, but Governor General Davis will not comment on the situation pending President Hoover's action on the resignation, which was sent direct to Washington.

Insular Auditor Wright opposed the payment of public funds to a Chinese contractor at Iloilo. He held the contractor was unable to do the work properly, and when ordered to pay by the Supreme Court he refused and was held in contempt. As a result he was fined $250 and sentenced to a short term, evading this, for the time being, on a writ of habeas corpus. His resignation was cabled to the President on July 7.

Y. W. C. A. Camp Season Opens.

McMILLAN AT RED BAY.

Word of Arrival in Labrador Picked Up in New Jersey.

FREEPORT, Me., July 9 (AP).—The first word from the Arctic expedition headed by Lieut. Commander Donald B. MacMillan, which left Wiscasset on June 22, was received today in a radio message from Dr. William P. Kendall, ichthyologist of the United States Bureau of Fisheries, a member of the scientific staff aboard the schooner Bowdoin.

The message was addressed to Mrs. Kendall at South Freeport and said: "Arrived at Red Bay (Labrador) this P. M. (July 7). First iceberg seen today. All well and apparently happy."

The message was forwarded to Mrs. Kendall by J. M. Hollywood, 33 Peter Place, Red Bank, N. J., and bore the station designation "W-1 SF." When the Bowdoin left Wiscasset last month she was accompanied by the Maravel, the mission schooner of Sir and Lady Wilfred F. Grenfel. The two ships were to cruise to the Grenfel Mission in Labrador together.

THE New York Steam Corporation has contracted with The New York Central Railroad Company and The New York, New Haven and Hartford Railroad Company to supply the entire steam requirements of the buildings in the Grand Central Terminal Group, amounting to over 1,500,000,000 pounds of steam annually. This group of buildings occupies an area extending from 42nd Street to 50th Street and from Madison Avenue to Lexington Avenue and embracing approximately twenty city blocks. The more than twenty-five large buildings have a volume of 200,000,000 cubic feet—a veritable city within a city.

With these additions to its list of buildings served, the New York Steam Corporation will supply steam to practically every important building in the Midtown Section. Of new buildings served, over 90% have no boiler plants and a large number are without smoke stacks.

The distribution of steam by the New York Steam Corporation from highly efficient central stations is having a most substantial effect in relieving traffic congestion and eliminating smoke, dirt and noise from important financial, commercial and residential districts of New York City. To generate the quantity of steam which will be distributed by the Corporation during the ensuing year, isolated plants would burn over 875,000 tons of coal and produce over 175,000 tons of ash refuse. This total of over a million tons of coal and ash would necessarily be carted through the most congested streets of the City and would require more than 700 five-ton truckloads every business day of the year.

New York Steam Service, backed by a record of forty-eight years of continuous operation, assures to owners of office buildings, apartment houses, hotels and private residences the utmost dependability and economy.
